Course Overview

Our three-day BCS Foundation Award - How To Manage Risk training course is designed for anyone wishing to gain an understanding of the principles of risk and how to manage it within an organisation.

Our BCS Foundation Award - How To Manage Risk training course will help you to develop your understanding of risk, how it's measured and managed, and how you report on risk effectively to inform sound business decisions - skills vital for every project in every organisation.

Course Learning Outcomes

BCS Membership Offer: If you do not hold a BCS certification and successfully pass the examination for this training course - you will be given one year's complementary BCS Membership. This offer is only valid for your first BCS qualification.

This award sits within the **Business Innovation** area of the AI Foundation Pathway and provides a comprehensive introduction to risk management which you can apply in many business situations.

You'll learn about:

- Defining Risk
- Analysing Risk
- Accurately Measuring & Documenting Risk
- Reporting On Risk Clearly & Effectively To Decision-Makers

Audience

- Anyone who implements digital technology and needs to understand the associated risks and implications
- Those who want a clearer understanding around the impact risk has on decision-making and running a business

Entry-Level Requirements

There are no specific entry requirements for this award. However, some professional experience in a business or IT environment may be advantageous.

Candidate Responsibilities

- You need to complete registrations for both BCS and Questionmark.
- You will receive an email inviting you to register on the e-professional portal. Once you have completed this registration, you will be able to see the booking details that your training provider had given to BCS.
- The exam date and time may not reflect what you will book with Questionmark, but we will update this once the exam has taken place so your certificate will have the correct date.
- You will also receive an email with log in details for Questionmark. This will enable you to complete your registration and book your exam. The link for registering is here.
- If you are unable to see an assessment to schedule once you have registered, please contact BCS via customerservice@bcs.uk.
- If you're unable to select a remote proctored time and date, contact support@questionmark.com.

Create Proctor Session

- To select the exam date and time click on 'Schedule'. If you have multiple exams to schedule it is advised that you only schedule the exam you wish to take otherwise you may encounter an error 500 screen.
- If you do encounter this then please clear your browser cache before proceeding.

What's Next

Other Business Innovation awards in the AI Foundation Pathway include:

- BCS Foundation Award - How AI Can Support Your Organisation
- BCS Foundation Award - Understanding The Problem And Implementing The Solution

Additional Information

Risk is a feature of any business; it influences the decisions an organisation makes and the way in which it operates.

Some organisations are more risk averse whereas others have a greater appetite for risk depending on what they wish to achieve in the market and the level of insight they have that enable them to take risks.

This includes understanding what risk is, identifying different types of risk, and how risk can be measured and assessed. It will consider the principles of risk management and how a clear reporting process can enable clear decisions to be made based on the information provided.

You will consider approaches to risk management and how it can be applied within their own context as well as in different situations and settings
